The Gunboat Dryad Ordered Back to Salonica.

POWERS ARE NOT IN CONCERT.

Alleged Danger to Foreigners From Fanatical Turks Is Given as the Cause of Great Britain's Inaction—American Missions Said to Be Safe on the Southern Slopes of Mount Taurus.

CONSTANTINOPLE, via Sofia, Bulgaria, Dec. 2.—It has not yet been conclusively developed here what is to be the effect on the disordered state of the empire of the relinquishment temporarily at least, of the purpose of the powers to introduce additional guardships into the Dardanelles for the protection of foreigners in the domains of the sultan. The ordering back to Salonica bay of the British gunboat Dryad, which had been ordered up to the Dardanelles at the request of the British ambassador, Sir Philip Currie, in anticipation of the promised granting of the firmans by the sultan for warships to pass through, is officially explained on the ground that the proposed action would do more harm than good by inflaming the fanaticism of the Turks against foreigners on account of the supposed affront to the sultan of what would, in effect, have amounted to a naval demonstration against Constantinople.

The effect of the abandonment of its purpose by Great Britain on the situation in Turkey is awaited with anxiety and great interest. The question of guardships seems at a standstill for the present, though the threat of Sir Philip Currie to renew his purpose unless foreigners should be exempt from outrage is still open.

Undoubtedly one effect of the ordering back of the Dryad to Salonica is that the belief in the often-alleged concert of the powers in their attitude toward Turkey is waning. The sultan is known to have been skeptical as to this concert for some time past and it is said has based his long-continued opposition to Great Britain's demands upon a belief that no such concert existed or that it could not endure for any length of time. This belief can not but have been in part confirmed by Great Britain's withdrawal of her demand after it had been so strenuously pressed to the very verge of a crisis.

Whether Great Britain is influenced by the alleged danger to foreigners from fanatic Turks which would ensue upon the proposed demonstration, or whether she has learned to doubt the approval of her action which might be accorded by the other powers, is therefore a question which is discussed on both sides.

United States Minister A. W. Terrell has received from Amintab, on the southern slopes of Mount Taurus, a dispatch which states that the American missionaries there are safe and were unharmed in the recent massacre and have not required the services of special guards.

Reports of a fanatical outbreak in Cossaea have created anxiety as to the safety of the American mission there and Minister Terrell has wired an inquiry, to which an answer is still awaited. The nonarrival of private letters from Kharpoot and Sivas also has a disquieting effect.

Official dispatches describe a small conflict in Zulicia, in the vilayet of Sivas, in which four Mussulmans and five Armenians were killed, and another at Enderlin, where Armenian rebels attacked the town, burned the government buildings and pillaged the Mussulmans' villages in the vicinity of Pias. Troops have been sent to repress the outbreak.

A letter from Aden, Arabia, dated Nov. 20, gives details of the Arabian revolt against the sultan in Yemen, the coffee-growing district of southwestern Arabia. The importance of the outbreak lies in its proximity to Mecca. The loss to the sultan of the Mussulman holy city would probably mean his deposition. Hence the strenuous official denials which have been made of the existence of the rebellion.

So far, the revolt has been confined to the district around Khamar, two days' journey from Sanaa, the capital of Yemen. The rebels number 45,000 Arabs armed with Martini and Snayder rifles and led by Sayyid, a pretender to the imanship of the whole Yemen country, who wields a great influence and surreptitiously collects tribute or taxes from all Arab tribes under Turkish rule.

Six thousand Turkish troops recently arrived at Sanaa from Constantinople and were distributed among the garrisons in the Khamar district.

The rebels had already captured, after severe fighting and great bloodshed, two Turkish forts at Khamar and Balabuda. In the latter 300 Turks were killed. The garrison fled to Masner and begged the 25 Sheikhs there to help to recapture Balabuda. The Sheikhs refused and were taken to Sanaa and imprisoned.

The telegraph is constantly cut and Sayyid, the pretender, burns letters and presents which the sultan sends.

CISTERNS CRACKED.

A Peculiar Effect of the Earthquake Noticed in Adams County, O.

PEEBLES, O., Dec. 2.—Since the good rains have fallen and the long and severe drouth has been broken, a startling revelation has been made. Not only in this place, but other places throughout the county a large number of cisterns do not hold water, and many people are placed in the same condition as before the rains. Investigations have been

made, and it is generally supposed that the cracking open of the walls and floors of cisterns is due to the recent earthquake shock which was so plainly felt. Wells and springs have not been affected in any way.

CORNER IN CAMPHOR.

Leading New York Druggists Fear One During This Winter.

NEW YORK, Dec. 2.—The leading drug firms of this city are apprehensive that the coming winter and spring will see a corner in camphor. The price of this article has been steadily increasing, until from 37 cents a pound only a few months ago, it has advanced to 60 cents a pound, with every prospect of going still higher. The importance of such an advance can be imagined when it is realized that in 1894 no less than 1,323,932 pounds of camphor were imported to this country.

Colonel North, the famous "Nitrate King," has been credited with being the head and front of the syndicate that purposes this corner, but in the opinion of leading druggists, he is not a present factor. A member of one of the largest wholesale drug establishments said to a reporter today that he did not think Colonel North was in it. "I am satisfied that he was up to a short time ago practically the head of the syndicate," said he, "but he has entirely withdrawn from it. There is no doubt but that a syndicate does control the supply of camphor. In fact, so fully convinced are we of this that we have laid in an unusual stock, so as to be prepared for a corner."

HONORABLE AND UNUSUAL.

Labor Leader McGann Will Relinquish His Certificate of Election.

WASHINGTON, Dec. 2.—Representative Lawrence McGann of Chicago, who held a seat in the Fifty-second and Fifty-third congresses and was chairman of the committee on labor in the last congress, will furnish to the house the unusual spectacle of a member making a voluntary relinquishment of the seat to which he holds the certificate. As soon as he is able to secure recognition from the speaker, Mr. McGann will make a statement to the house to the effect that his Republican opponent, Mr. Hugh R. Belknap, is entitled to the seat and that he (McGann) waves all claims thereto. This step will make it possible for the committee on elections, as soon as it is organized, to report in favor of seating Mr. Belknap and will relieve that gentleman of the necessity of making a contest before the committee. Mr. Belknap, who will succeed Mr. McGann, is a son of Hon. W. W. Belknap, who was secretary of war under President Grant.

BIG FORGERIES.

The Manager of an Abstract Company Arrested.

PERRY, Ia., Dec. 2.—An alleged big swindler was run down Saturday. J. E. Alpaugh, manager of the Dallas County Abstract company of this city, was arrested at the instance of the Scott County Savings bank of Davenport on the charge of forgery. Alpaugh has been loaning money for the Davenport concern, placing in that way, it is said, about \$40,000. Saturday C. A. Ficke of Davenport, attorney for the bank, arrived here and after an investigation claimed that the mortgages by which a large part of the money was secured are forged. He caused Alpaugh's arrest on four counts of forgery and uttering forged paper. Mr. Ficke places the bank's loss, so far as discovered, at \$13,000. There are reports that other concerns are also victims, but these are not verified. Alpaugh waived examination and in default of \$10,000 bail was taken to the county jail at Adel.

Distinguished Arrivals.

NEW YORK, Dec. 2.—The French liner La Normandie, which arrived here Sunday, had among her passengers Baron De Batz and his friend Baud on de Mony, who are going to the Rocky mountain country on pleasure and business, of which they declined to speak. Another of La Normandie's passengers was M. Henri Seve, a civil engineer in the employ of the English government tobacco factories. Mr. Seve is going to Cleveland and Chicago to examine modern machinery for manufacturing both tobacco and matches, of which the French government has the monopoly.

Three Killed by Cars.

TOLEDO, Dec. 2.—The mail train on the Adrian division of the Lake Shore, due here at 6:40 p. m., struck a wagon containing three persons at Air Line Junction, killing all of them. The dead are: Joseph Reisman, his 10-year-old daughter, Lizzie, and Ernest Neiver. The men were market gardeners, and were returning home from market.

Cadet Dies Suddenly.

WANEBO, Kmi., Dec. 2.—Albert Britman was found dead yesterday between Wanebo and Louisville, three miles distant, to which point he attempted to walk in the night. He was a West Point cadet, but had been in the hospital at St. Louis for several weeks and was not expected home. His heart was affected.

Sunday in New York.

NEW YORK, Dec. 2.—The excise law was strictly enforced yesterday and the police were on the alert to see that no violations should be permitted, if they could do anything to prevent it. All suspected places were carefully guarded by patrolmen in uniform, while officers in the clothing of a civilian, were close by, to gain, if possible, an entrance to the suspected saloon.

NOTHING IS PROMISED

In the Way of Legislation This Week.

REED SELECTED BY CAUCUS.

Congress Convened, but Nothing but Preliminaries Can Go Through in the House, While the Senate May Be Enlivened by an Attempt at Reorganization—Forecast For the Week.

WASHINGTON, Dec. 2.—The first week of the Fifty-fourth congress, which convened at noon today, promises nothing at either end of the Capitol in the way of actual legislation. The time before the Christmas holidays is usually devoted to preliminary matters and the work of the session does not begin until after the recess. The new congress will probably not be an exception to this rule. The senate proceedings may be enlivened by an attempt at reorganization but in the house nothing can be done until the committees are appointed.

Speaker-elect Reed says that the committees will not be announced this week with, perhaps, a single exception—the committee on rules. This committee formulates the rules which are to govern the house during its sessions, and it is customary for the speaker to name it during the first week in order that it can immediately begin its labors. While it is believed that the rules of the Fifty-first congress, over which Mr. Reed presided, will be reported as the guidance of the present house, it is understood that a few changes will be made as a result of experience which are designed to still further improve the house machinery and the facilitation of public business.

Mr. Kerr, clerk of the last house, will call the house to order. After the roll-call, the election of the officers nominated by the Republican caucus Saturday night, will occur and as soon as Mr. Reed is formally installed as speaker, the drawing of seats, which is known as the congressional "raffle," will follow. This is a somewhat tedious, but amusing affair and will occupy the remainder of the afternoon. The reading of the president's message will consume Tuesday and at its conclusion the house will probably adjourn until Thursday and on convening Thursday adjourn immediately until Monday. The adjournments will continue probably until the committees are announced. This is the program, but the unexpected might occur, as it so often does in the house, if some aspiring members should introduce a sensational resolution and ask for its immediate consideration.

It is not probable that the first week of congress will witness much serious effort at legislative work in the senate. If any should be accomplished beyond the receipt of the president's message and of the recess nominations and the introduction of bills the session would be an exception in the history of the senate.

In view of the fact that the message will not be received until Tuesday the proceedings of Monday will consist in the swearing in of the newly elected members who may be present and the appointment of a committee to wait upon the president. The session will probably not continue beyond 1 o'clock when the Republicans will meet in caucus. The message will be read on Tuesday and the brief sessions of Wednesday and Thursday will be devoted largely to the introduction of bills of which there will be several hundred.

Following precedents the senate will adjourn on Thursday until the following Monday. One or two brief executive sessions for the reference of nominations are also among the probabilities for the week.

If the Republicans decide upon an effort to reorganize, as is now generally conceded, the Democrats will follow with a conference on Tuesday or Wednesday, at which they probably will decide upon a course of action. It now appears probable that all three parties will place candidates for president pro tem in the field, and in that event the week will be enlivened somewhat by a triangular contest for this and the other offices of the senate.

Secretary of Caucus.

WASHINGTON, Dec. 2.—The statement published yesterday that Representative Ellis of Oregon had defeated Mr. Hooker of New York for the position of secretary of the Republican caucus is incorrect. The fact is that Mr. Hooker was the successful candidate for the position, being elected by a large majority.

WAVES UPSET THE SKIFF.

Sad Accident to a Party of Four on the Monongahela.

UNIONTOWN, Pa., Dec. 2.—Four persons were drowned in the Monongahela river below Brownsville Saturday night about midnight. John Pickup, Miss Laura Stevenson and Mr. and Mrs. McEnford were returning from Brownsville to their home at Wood Run in a skiff. They got too close to the steamer James G. Blaine, which was coming up stream and the waves upset the skiff, throwing them all into deep water. Nothing could be done to help them in the darkness. The men's bodies have been recovered, but the women are still in the water.

BROOKLYN, Dec. 2.—Fire yesterday destroyed Theodore Schmitz's silverware factory at Bay Ridge, causing damage to the amount of \$29,000. The fire is believed to have originated from an overheated stove in the office. The loss is fully covered by insurance.

HOLMES' FATE.

The Multi-Murderer Refused a New Trial and Must Hang.

PHILADELPHIA, Dec. 2.—The multi-murderer, H. H. Holmes, must hang unless the supreme court grants an appeal. In the court of Oyer and terminer Saturday, Judge Arnold refused to grant the prisoner, who was convicted on Nov. 2, of the murder, in this city, on Sept. 2, 1894, of B. F. Pietzel, a new trial, and sentenced the murderer to death. Holmes, when he came into court, looked careworn, and seemed to have lost that air of confidence which he clung to him throughout his ordeal. Court opened with a brief tilt between Judge Arnold and Lawyer Rotan, counsel for the defendant. Judge Arnold charged that Mr. Rotan had offered an insult to the court by sending briefs to Presiding Judge Thayer and Judge Willson, who had sat with Judge Arnold when Holmes' counsel had argued for a new trial, but had neglected to send him a copy.

Mr. Rotan disclaimed any intention of insulting Judge Arnold, and pleaded haste as an excuse for having neglected to send him a brief.

Judge Arnold then proceeded to read the court's answer to Holmes' counsel's reasons for a new trial. He took up the 15 exceptions to the verdict, one at a time, and dwelt at length upon each. The main reasons for a new trial, which were put forth by the defendant's counsel, were the admission of the testimony of Miss Yoke, whom Holmes claimed as his lawful wife; the district attorney's opening speech to the jury, when he brought the murder of the children into the case, and part of Mrs. Pietzel's testimony, in which she said the last time she saw her children "was in the morgue at Toronto."

In reference to Miss Yoke's eligibility as a witness, the judge said that it was the opinion of the court that Holmes was not only married to the Williamette (Mrs.) woman when he wedded Miss Yoke, but that he also had a wife in Gihuan, N. H. Therefore, the marriage to Miss Yoke was null and void, and the evidence was admissible.

The opening speech of the district attorney, he said, was not open to objection. It was the evident intention of Holmes, said Judge Arnold, to take off the entire Pietzel family in order to secure property belonging to the murdered man.

As to the statement of Mrs. Pietzel, the judge had instructed the jury not to be influenced by the woman's statement; he closed by saying that the court approves the verdict and refuses a new trial.

District Attorney Graham then arose and asked that sentence be pronounced. Holmes was ordered to stand up. Judge Arnold said:

"Herman W. Mudgerts, have you anything to say?"

Holmes replied in a barely audible voice: "I have nothing to say."

Judge Arnold then pronounced the death sentence in the usual form, after which Holmes was taken from the court to prison. Governor Hastings will fix the day of Holmes' execution. An appeal to the supreme court will be taken at once.

PARDON MILL BUSY.

More Murderers in Kentucky Turned Loose by Governor Brown.

FRANKFORT, Ky., Dec. 2.—Pardons were granted Saturday to Thomas Baker of Powell county and Humphrey Clifton of Scott county. Both were serving life sentences. Governor Brown also pardoned Charles Hogg of Clay county before trial, under indictment for malicious shooting. He rejected an application for pardon for Frank Sjohn, who murdered Carrie Van Hook, a negro girl, in Harrison county a few years ago. Sjohn is a fugitive from justice and has never been tried.

Thought to Be the Horse.

CAPE MAY, N. J., Dec. 2.—A steamer which is alleged to be the Danish freight steamer Horse that sailed from Philadelphia Saturday night for port Antonio, and the officers of which are under bail for alleged violation of the neutrality laws in aiding the Cubans, appeared Sunday morning and took on seven passengers who came from Philadelphia. The steamer reached here before daylight and was away with her passengers before 7 o'clock. No one seems to know the nationality of the men taken aboard. One was landed who is alleged to be a Delaware river pilot, but who has not been seen since early this morning. He was a native of Cape May and could easily escape the eyes of the suspicious.

Shot His Sister.

NEWARK, O., Dec. 2.—Bert Howarth, aged 19 years, son of Thomas Howarth, a Baltimore and Ohio engineer, accidentally shot his sister Jessie, aged 10 years. The father had just started on passenger train No. 104 to Bellaire. The boy had taken the gun to shoot a pigeon. Returning into the house, he attempted to let the hammer down and it slipped. The child was only a few feet away, and the charge struck her in the head and carried her lower jaw entirely away. She can not possibly live. The father was advised by wire and turned his engine over to another man, returning during the night.

The Paris in Port.

NEW YORK, Dec. 2.—The American Line steamship Paris, which has been undergoing extensive repairs at Cramps' shipyards and which was thoroughly cleaned and painted at Newport News, arrived in port Sunday afternoon. She will take the New York's sailing schedule and the latter will go to the Cramps' yard and undergo the same overhauling as her sister ship.

KENTUCKY FARMER'S CRIME.

Murderer Orville Eals Shot to Death by an Officer's Posse After Taking Refuge in a Hut and Refusing to Surrender—Horrible Affair of Blood Near Browningsville, Ky.—What Met the Officers' Gaze.

CYNTHIANA, Ky., Dec. 2.—Murderer Orville Eals, while resisting arrest by a posse yesterday was shot to death after he had butchered his wife, killed an officer and badly wounded two other men. Eals was a farmer, living near Browningsville, and his wife deserted him for John Fields, a tenant of the place. Eals induced his wife to return on Tuesday, after he had killed Fields. Eals, who defied arrest, was well armed and took refuge in a hut. A large posse came upon the hut Saturday night, and Sunday at dawn the attack was made. When the rush was made from the heavy timber Eals began firing. A man named McCombs fell mortally wounded and two men named Wells and Herbert were seriously shot.

The storming party effected an entrance to the hut and a horrible sight met their gaze. On the floor lay the mutilated body of Mrs. Eals, almost nude and covered with ugly wounds, while nearby lay a bloody hatchet with which she had been killed. The posse had fired a fusillade of shots as it entered the house and Eals was shot to pieces.

SUBORDINATES

In the Immigration Service Are Accused of Wrongdoing.

NEW YORK, Dec. 2.—During the past week Commissioner Stump of Washington has been in this city conducting an investigation into immoralities alleged to have occurred at Ellis island recently. No public report has been made concerning the matter, but it is understood that some of the employees attached to the Ellis island immigration bureau in a minor capacity have been accused of wrongdoing. Some of the young women who have been detained at the island by the local immigration commissioners, pending an investigation into their cases, are also accused of immoralities. The story first came out through the confessions of a night watchman who boasted of an intrigue with Miss Annie N. Grimmer, a governess from Bremen, Germany.

Miss Grimmer eloped with a well known architect at Bremen. The architect was permitted to land as he had relatives in New York, but the young woman was held, pending an investigation. Before the board of special inquiry had reported on her case, the boasts of the watchman reached the ears of his superiors, and Miss Grimmer, being deemed an immoral character, was sent back to Germany. Several cases of a similar nature have since been uncovered and the immigration commissioners are now trying to determine the extent to which the service has been affected by the misconduct of subordinates.

AN OPEN SWITCH

Derails a Passenger Train, Killing Engineer and Fireman.

SYRACUSE, Dec. 2.—Passenger train No. 8, on the Delaware, Lackawanna and Western railroad, which left Syracuse at 10:10 last night, ran into an open switch at Preble, and telescoped three freight cars. The engine of the passenger was completely wrecked and the baggage and mailcars and two coaches caught fire from the blaze under the wrecked boiler and were consumed.

The engineer was instantly killed and the fireman was taken from the debris by the passengers in a dying condition. The sleeping car was the only one saved. Nobody was seriously hurt, except the engineer and fireman. The baggage and mail were almost all saved. The freight station at Preble caught fire from the wreck and was burned. Wrecking train has gone to the scene.

The engineer who was killed was Richard Young, unmarried, of this city, who has been 15 to 20 years in the service. The fireman's name was Roof. A wrecking train has gone to the wreck. Members of "A Bowery Girl" company were on the train, but none of them are seriously hurt.

The switch at the scene of the disaster was found blocked. Somebody had tampered with it with the deliberate intention evidently of wrecking the train.

DENVER, Dec. 2.—The career of Cripple Creek may be repeated and possibly eclipsed by West Creek, which is within 50 miles of Denver and almost in sight of the dome of the capital. The greatest activity now prevails among the miners and prospectors and townsite boomers. Two stage lines are kept busy between Rockland Park and West Creek and one between Platt station and the camp. Two towns, Tyler and Pemberton have been established and there are nearly 1,000 people at the camp.

YOUNG MAN.

Study These Figures—A Warning
That Should be Heeded.

[Medical Progress.]

Dr. Crothers, of Hartford, who has had long experience in the management of institutions for the inebriate and insane, says that "inebriety is the active cause of from 15 to 50 per cent of all insanity; from 30 to 80 per cent of all idiocy; from 60 to 90 per cent of all pauperism, and from 50 to 85 per cent of all crime," then asks the question, "Who can estimate the relief of the taxpayers by the removal of the perils to both property and life from drunkenness?"

Dr. Day, of Boston, in his late annual report of the Washington Home for the Treatment of Inebriates, says: "On the individual the effect of vicious alcoholic indulgence is disease of the body. Sooner or later it must succumb. Disease of the mind is not far off. It may be delirium or insanity."

Dr. Formad found in the dead house autopsies of the Philadelphia Hospital that in 250 chronic alcoholists nearly 90 per cent had fatty degeneration of the liver, 60 per cent had congestion or a dropsical state of the brain; the same number an inflamed or degenerated stomach, while not quite one per cent had normal kidneys.

To be convinced of the cause of so much pauperism in the country, we have only to examine the statistics of the liquor traffic in the United States. "According to the report of Internal Revenue Commissioner Miller, for the year 1892, the patrons of the saloons paid \$609,000,000 for whisky and \$617,258,460 for beer, a total of \$1,226,258,460, the interest of which for one minute at 6 per cent per annum is \$8,515,638." This would more than pay off the national debt, and would feed and clothe all the poor of the country.

When we look abroad over the world and take a bird's eye view of the evil effects of intemperance in its various aspects, its production of disease and death, the destruction of happiness and home, pauperism and crimes innumerable, with general demoralization, we are astonished that any thinking man, much less a physician, should come to the conclusion that drinking men and drunkards enjoy greater longevity than total abstainers.

Cochran, Jr.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the cultures—the torments of a diseased liver. Dr. Pearce's Golden Medical Discovery is more than equal to the cultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over.

DISPLAY OF EGOTISM.

A Theosophist's Views on the Women's Prayers for Ingersoll.

NEW YORK, Dec. 2.—Claude Falls Wright, secretary of the late Madame Blavatsky, delivered a lecture on "Occult Phenomena" at Chickering hall yesterday. The lecture was under the auspices of the Aryan Theosophical society. During the course of his lecture, Mr. Wright created a sensation by referring to the prayers of a large body of Christian Endeavorers in Cleveland for the conversion of Colonel Ingersoll.

"They are doing a great wrong," said he, "and are practicing sorcery or black magic. You have no right to attempt to change a man's life because you think it wrong and because it differs from your own. If Ingersoll wants to have a certain religion, why should he not? The Christian Endeavorers are not doing the fair thing. I don't think they will have much success. They are not competent to have great influence as their minds are not right. Ingersoll is a good man and this effort is only a display of egotism."

Treasurer and Depository—J. C. Pecor.
Secretary—M. F. Marsh.

Executive Com.—First Presbyterian Church, A. M. J. Cochran; M. E. Church, I. M. Lane; M. E. Church, South, G. W. Geisel; Central Presbyterian Church, J. H. Orr; Church of the Nativity, W. H. Cox; Christian Church, W. S. Frank.

A communication from Alexander McLean, Corresponding Secretary of the American Bible Society, was read, urging all auxiliaries to renewed efforts. The "fourth re-supply" of the country was designed to place "a Bible in every home;" the society is now working to place a Bible in the hands of every child of suitable age.

Resolutions were adopted urging the new officers and Executive Committee to renewed efforts to enlist the sympathy and co-operation of the various churches of the city and county in carrying on the work of the Bible Society.

Rev. E. L. Shepard of the M. E. Church then delivered the annual address. It was an interesting and highly instructive discourse, and was listened to closely throughout.

After the doxology, the meeting adjourned with benediction by Rev. W. O. Cochran.

Dr. Frazee For Inspector.

The Cincinnati leaf tobacco warehouses have agreed upon a uniform inspection hereafter, and recommended Dr. J. M. Frazee, of this city, Col. Isaac Mann, of the Bodmann, and Dr. W. A. Bradford, of the Farmers', for Inspectors. The election comes off to-day.

Dr. Frazee was not an applicant, and his selection came as a surprise. The position pays handsomely.

Lost a Leg.

Thanksgiving night a young man from Covington attempted to get on a freight train at Stone City and fell under the cars, having his right leg mangled in a frightful manner. He was taken to Vanceburg where Dr. Owens, of this city, amputated his leg near the hip. His name is Adolph Maehlied, and he was trying to steal a ride to Huntington. He will recover.

NEW YORK, Dec. 2.—The Anchor line steamer California, which arrived yesterday from Mediterranean ports with 800 steerage passengers, embarked at Naples, has one case of smallpox on board, a woman, aged 19. KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

THE RISE HERE,

And With it Comes the Big Coal Fleet. Nearly Nine Feet on Marks. River News.

The river has risen nearly seven feet here since Saturday morning. The marks showed 2 5-10 feet Saturday at 9 a. m.; this morning at 8 o'clock the gauge showed a stage of 8 6-10 feet and still rising. Last night's rain was a pretty heavy one, and if it extended to the headwaters there will be more water in a few days. At any rate there is little danger of the packets being troubled with low water any more until next season.

The Sherley passed up Sunday afternoon at 2 o'clock for Pomeroy.

The Stanley passed down at 8 o'clock this morning, with a fine trip. She returns to-night for Pomeroy.

The Sunshine passed up late Saturday evening, a day out from Cincinnati. She now sports the old St. Lawrence's musical whistle. She is due down to-day.

The Stanley passed the "flag ship" of the big coal fleet at Wrightsville, and reported the river lively with boats from that point up. The fleet will be passing here this afternoon.

A new music box, called the Regina, shown at Ballenger's, is attracting considerable attention. Will play thousands of tunes—any number in fact—making the purest and sweetest music imaginable. Call and hear it play and get a list of music.

SHE DREAMED,

And After Five Years Her Happy Vision Came True.

SHARPSBURG, Ky., November 29.—A dispatch to relatives here announces the marriage yesterday afternoon at Laredo, Texas, of Miss Marie Turner to Mr. John C. Jessop. The bride is a native of this town, where her mother still resides. She was a teacher in a mission school at San Luis Potosi, Mexico, for nearly five years, under the Women's Board of Foreign Missions of the M. E. Church, South. The night before Miss Turner left for Mexico she dreamed that she would be married within five years to a wealthy Englishman, the initials of whose name would be "J. C. J." That dream has come true. The groom is a wealthy Englishman, engaged in silver smelting and gold mining near San Luis Potosi.

DESPERATE

Was This Fight in Which a Maysville Man Engaged—He Was Badly Worsted.

(Cincinnati Enquirer.)

Last Thursday night the Riverside Rolling Mill, located at Cullom's Station, was the scene of an exciting fight which at first promised to end in a murder. The combatants were John Wills, of Maysville, Ky., and "Red" Foster, of Riverside. Both are employed at the mill. For some time they have been rival suitors for the hand of Miss Alice Thege, a pretty girl of that vicinity.

It seems that Foster had outpointed his rival and made an engagement to take her to a ball or entertainment, and was "kidding" Wills about the matter at their work Thursday night. The latter became highly incensed at his rival and, securing a revolver, attempted to shoot him. Foster, realizing his peril, struck Wills between the eyes, knocking him to the floor. In falling the back of Will's head came in contact with a pile of pig iron, cutting a deep gash in his scalp. Foster then jumped on the helpless man and beat him in a terrible manner. A number of other workmen, hearing the scuffle, rushed in and prevented Foster from probably fatally injuring his adversary.

The injured man was carried to a house near by, where Drs. J. M. and W. H. Barclay, of Riverside, attended him. It required thirty-four stitches to sew up the cuts in his scalp and face.

Upon the revolver with which Wills had attempted to shoot Foster being examined it was found that four shells had been struck by the trigger, but fortunately each of them had missed fire.

A Pastor Resigns.

The resignation of Rev. E. B. Cake, as pastor of the Christian Church was presented to the church at the close of services Sunday morning. The resignation is to take effect at the expiration of his present year, the last of next February.

Decker's shirt factory at Ashland has been closed by the Sheriff on a claim of \$5,000.

The indications are that the Christmas trade of 1895 will be larger than ever before, says an exchange. Now is the time to advertise, if you wish to catch your share of the trade. Try the Bulletin.

The great reduction sale at the Bee Hive lasts but one week. Kid finished cambrics 37-8 cents yard; ten yards good outing flannel for 39 cents; all cloaks one-fourth off in price; P. D. corsets were \$2, now \$1.25; all wool mitts and gauntlet gloves 10 cents. Not a few things but everything at the Bee Hive reduced.

The L. and N. has discontinued its mechanical department at this point and the work will hereafter be done at Richmond, Ky. Mr. John Berry, who has been foreman of the department here, is transferred to a position at the Covington end of the line. The change leaves two other hands, Mr. Fred Lawrence and a colored man, without employment.

At the Thanksgiving dinner at the Soldiers Home, Dayton, O., there were consumed 5,000 pounds of turkey, 800 quarts of cranberries, 130 gallons of oysters, 1,250 pies, 900 pounds bread, 100 bushels potatoes, 500 dozen oranges, 250 bunches celery, 1,300 pounds stewed tomatoes, 175 pounds butter, 750 gallons coffee, besides other good things, like giblet sauce, cookies, raisins, &c.

Painfully Injured in a Runaway.

The friends of Mr. Ed. Richeson will regret to learn he was painfully injured Sunday afternoon. While out driving near Moransburg, his horse frightened and ran off, wrecking the vehicle and breaking Mr. Richeson's right ankle. The fracture was a serious one, the bones protruding through the flesh. Dr. Reed dressed the injury and Mr. Richeson was then removed to his home on West Third street.

CINCINNATI TOBACCO MARKET.

Good Demand For the Best Grades, and Prices Appear to Be Improving.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for last week has the following:

Very little can be said concerning the tobacco market for the past week, there being sales only two days, Tuesday and Wednesday. Offerings were only moderate on Tuesday, caused by the large sales of the previous week, and sellers were of the opinion that prices would not be any better, and did not care to offer so largely, but the market started with considerable vim and prices were fully as firm, if not some stronger, the entire day. Offerings on Wednesday were some larger and prices kept up firm with the Tuesday's sales, and there were not many rejections.

There is a good demand for the best grades, and as they grow less in the market the prices appear to improve, but the mediums and low grades hang at about the same figures, with the usual fluctuations that generally follow an unsteady market. The color tobacco is quite active, offerings not being equal to the demand, and there can only be one conclusion, and that is, all the old stock with color will be required, and firm prices will be maintained, while the new tobacco will come in competition with all dark grades.

Very little of the new crop has come to the market. The best price obtained so far has been \$14.75, while some inferior grades have sold at 12 1/2 to 4 cents, and, from the general character of the crop so far, we think prices will start at about the same figures as one year ago.
